

5.1 Major Discipline

A student will choose his/her 'Major' discipline in the respective stream by the end of the IV semester (2nd year) and will register for the same at the start of the V semester (3rdrd year). However, in addition to the students admitted into the Engineering Science stream the students admitted in Natural Sciences and Economic Sciences stream are allowed to take the Data Science & Engineering premajor courses in their 2ndnd year. These students, who have completed the Data Science & Engineering premajor courses, are allowed to migrate to BS programme in Engineering Sciences stream majoring in the department of Data Science & Engineering. The maximum number of students permitted to major in a department is 50. The allotment of major discipline will be on the basis of CPI subject to fulfilling the eligibility criteria. The student may be allotted second or third choice based on the seats available and CPI scored.
