

6.1 Late Registration

If for any compelling reason (e.g., illness), a student is unable to register on the day of registration, he/she can register on or before the last date of late registration specified in the academic calendar upon the payment of the late registration fee. Even in the event of late registration, the semester fee must be paid on or before the last date specified for fee payment. On the day of late registration, only the late registration fee may be paid.
